BT speaker with an elegant look

Gentleman Bluetooth speaker

A Bluetooth speaker full of character and style, powerful, upright and good-looking, in other words, gentleman-like. The new Hama Gentleman models are available in three sizes; they have a fine fabric cover, chic leather carrying strap, and deliver rich sound.

Whether you want to play the house music playlist on your smartphone or the smooth jazz collection on your tablet, the mini boxes access your currently favourite songs wherever they are. For complete independence on the go, the music can also be played directly from a microSD card.

To avoid interruption of the Bluetooth connection when a call is received on your smartphone, the Hama speaker has a hands-free function.

As the 'Gentleman' is NFC-enabled, you simply have to hold your smartphone close to the Bluetooth box for the smartphone to automatically connect. Pairing of the devices, which can often be troublesome, is therefore unnecessary. Should the Hama Gentleman run out of power, the battery can be recharged using the supplied USB charging cable and a laptop or PC; or you can use a USB charger plugged into a socket.

Thanks to IPX5 certification, the speaker is protected against water jets – so it is also the right sound partner when you are at the bathing lake.
