Instructions on attaching the DVD player case in the car

1. Unhook the car’s seat belt from the backrest of the seat, place the player bag in the seat backrest, and secure the bag with the car’s seat belt. Once finished, adjust the seat belt and the seat backrest to their original positions. Then, the DVD player case is securely placed in the backseat of the car.

2. To remove the DVD player case from the backseat of the car, unhook the seat belt from the case, and remove the case from the backseat.
