WARNING

1. Upon purchase, please review these user instructions prior to use. For the user's safety, please thoroughly read and understand these instructions before use. Improper use may result in damage to the product and may cause personal injury. Failure to follow the instructions may lead to legal responsibility for damage caused to others.

2. Please do not immerse the product in water or any other liquid. Avoid exposure to direct heat or sunlight. Do not disassemble or modify the product. This may result in electric shocks, fire, or other safety hazards. Improper handling may void the warranty and cause damage to the product.

3. Please do not expose the product to excessive vibrations or shocks. Avoid using the product in areas with high humidity, dust, or foreign objects. This may cause damage to the product or even result in electric shocks.

4. Please do not use the product under the influence of alcohol or medication. Do not operate the product while driving or operating machinery. This may result in accidents or personal injury. The user bears responsibility for any damage caused by improper use.

5. Please do not drink alcohol or consume any other beverages while using the product. Avoid using the product immediately after eating. This may cause nausea or dizziness. The user bears responsibility for any damage caused by improper use.

6. Please do not store the product in areas with high temperatures or humidity. Avoid exposure to direct sunlight or heat from a heat source. This may cause damage to the product or even result in fire.

7. Please do not store the product in areas with high levels of dust or foreign objects. Avoid exposure to pet fur or other debris. This may cause damage to the product or even result in electric shocks.

8. Please ensure the product is stored in a cool, dry place. Avoid exposing the product to direct sunlight or heat. This may cause damage to the product or may result in fire.

9. Please do not use the product while operating a motor vehicle or while performing any other dangerous activities. Avoid using the product while operating heavy machinery or while engaging in any other activities that require full attention. This may result in accidents or personal injury. The user bears responsibility for any damage caused by improper use.

10. Please do not use the product for any other purpose than the intended use. Improper use may result in damage to the product or may cause personal injury. The user bears responsibility for any damage caused by improper use.

11. Please do not use the product in areas with high magnetic fields. Avoid using the product near high-voltage power lines or power substations. This may cause damage to the product or may result in electric shocks.

12. Please do not use the product in areas with high levels of radio frequency interference. Avoid using the product near cell phones, wireless routers, or other wireless devices. This may cause damage to the product or may result in electric shocks.

13. Please do not use the product when it is wet or when the user is in a state of disorientation. Avoid using the product when the user is feeling ill or when the user is in a state of disorientation. This may cause damage to the product or may result in electric shocks.

14. Please do not use the product in areas with high levels of sound pressure. Avoid using the product in areas with loud noises. This may cause damage to the product or may result in hearing loss. The user bears responsibility for any damage caused by improper use.

15. Please do not use the product in areas with high levels of vibration. Avoid using the product in areas with high vibration levels. This may cause damage to the product or may result in hearing loss. The user bears responsibility for any damage caused by improper use.

16. Please do not use the product in areas with high levels of dust or foreign objects. Avoid exposing the product to pet fur or other debris. This may cause damage to the product or even result in electric shocks.

17. Please do not use the product in areas with high levels of temperature. Avoid exposing the product to high temperatures. This may cause damage to the product or may result in fire.

18. Please do not use the product in areas with high levels of humidity. Avoid exposing the product to high humidity levels. This may cause damage to the product or may result in electric shocks.

19. Please do not use the product in areas with high levels of moisture. Avoid exposing the product to high moisture levels. This may cause damage to the product or may result in electric shocks.

20. Please do not use the product in areas with high levels of shock. Avoid exposing the product to high levels of shock. This may cause damage to the product or may result in electric shocks.

21. Please do not use the product in areas with high levels of vibration. Avoid exposing the product to high levels of vibration. This may cause damage to the product or may result in electric shocks.

22. Please do not use the product in areas with high levels of sound pressure. Avoid exposing the product to high sound pressure levels. This may cause damage to the product or may result in hearing loss. The user bears responsibility for any damage caused by improper use.

23. Please do not use the product in areas with high levels of dust or foreign objects. Avoid exposing the product to pet fur or other debris. This may cause damage to the product or even result in electric shocks.

24. Please do not use the product in areas with high levels of temperature. Avoid exposing the product to high temperatures. This may cause damage to the product or may result in fire.

25. Please do not use the product in areas with high levels of humidity. Avoid exposing the product to high humidity levels. This may cause damage to the product or may result in electric shocks.

26. Please do not use the product in areas with high levels of moisture. Avoid exposing the product to high moisture levels. This may cause damage to the product or may result in electric shocks.

27. Please do not use the product in areas with high levels of shock. Avoid exposing the product to high levels of shock. This may cause damage to the product or may result in electric shocks.

28. Please do not use the product in areas with high levels of vibration. Avoid exposing the product to high levels of vibration. This may cause damage to the product or may result in electric shocks.

29. Please do not use the product in areas with high levels of sound pressure. Avoid exposing the product to high sound pressure levels. This may cause damage to the product or may result in hearing loss. The user bears responsibility for any damage caused by improper use.

30. Please do not use the product in areas with high levels of dust or foreign objects. Avoid exposing the product to pet fur or other debris. This may cause damage to the product or even result in electric shocks.

31. Please do not use the product in areas with high levels of temperature. Avoid exposing the product to high temperatures. This may cause damage to the product or may result in fire.

32. Please do not use the product in areas with high levels of humidity. Avoid exposing the product to high humidity levels. This may cause damage to the product or may result in electric shocks.

33. Please do not use the product in areas with high levels of moisture. Avoid exposing the product to high moisture levels. This may cause damage to the product or may result in electric shocks.

34. Please do not use the product in areas with high levels of shock. Avoid exposing the product to high levels of shock. This may cause damage to the product or may result in electric shocks.

35. Please do not use the product in areas with high levels of vibration. Avoid exposing the product to high levels of vibration. This may cause damage to the product or may result in electric shocks.

36. Please do not use the product in areas with high levels of sound pressure. Avoid exposing the product to high sound pressure levels. This may cause damage to the product or may result in hearing loss. The user bears responsibility for any damage caused by improper use.

37. Please do not use the product in areas with high levels of dust or foreign objects. Avoid exposing the product to pet fur or other debris. This may cause damage to the product or even result in electric shocks.

38. Please do not use the product in areas with high levels of temperature. Avoid exposing the product to high temperatures. This may cause damage to the product or may result in fire.

39. Please do not use the product in areas with high levels of humidity. Avoid exposing the product to high humidity levels. This may cause damage to the product or may result in electric shocks.

40. Please do not use the product in areas with high levels of moisture. Avoid exposing the product to high moisture levels. This may cause damage to the product or may result in electric shocks.

41. Please do not use the product in areas with high levels of shock. Avoid exposing the product to high levels of shock. This may cause damage to the product or may result in electric shocks.

42. Please do not use the product in areas with high levels of vibration. Avoid exposing the product to high levels of vibration. This may cause damage to the product or may result in electric shocks.

43. Please do not use the product in areas with high levels of sound pressure. Avoid exposing the product to high sound pressure levels. This may cause damage to the product or may result in hearing loss. The user bears responsibility for any damage caused by improper use.

44. Please do not use the product in areas with high levels of dust or foreign objects. Avoid exposing the product to pet fur or other debris. This may cause damage to the product or even result in electric shocks.

45. Please do not use the product in areas with high levels of temperature. Avoid exposing the product to high temperatures. This may cause damage to the product or may result in fire.

46. Please do not use the product in areas with high levels of humidity. Avoid exposing the product to high humidity levels. This may cause damage to the product or may result in electric shocks.

47. Please do not use the product in areas with high levels of moisture. Avoid exposing the product to high moisture levels. This may cause damage to the product or may result in electric shocks.

48. Please do not use the product in areas with high levels of shock. Avoid exposing the product to high levels of shock. This may cause damage to the product or may result in electric shocks.

49. Please do not use the product in areas with high levels of vibration. Avoid exposing the product to high levels of vibration. This may cause damage to the product or may result in electric shocks.

50. Please do not use the product in areas with high levels of sound pressure. Avoid exposing the product to high sound pressure levels. This may cause damage to the product or may result in hearing loss. The user bears responsibility for any damage caused by improper use.
