Screen Protector Foil

Installation Instructions and tips for attaching the screen protector

1. Package Contents
   - Screen protector (1)
   - Screen protector installation instructions
   - Screen protector installation software

2. Installation Instructions and Tips
   - To help you choose the Hama screen protector for your device, we have developed a practical and intuitive installation software. With the installation software, the screen protector is displayed in the correct position on your device and the installation process is automated. A special tool is included to help you cut the screen protector to the right size.

3. Installation Requirements and Preparations
   - Select a location with good light to position the screen protector for optimal visibility.
   - Make sure the screen surface is clean and free of dust and fingerprints.
   - Avoid touching the screen surface with your fingers.
   - Place the screen protector on the device screen and press it into place.

4. Attaching the Protector
   - Remove the protective paper from the back of the screen protector.
   - Align the screen protector with the screen and press it into place.
   - Make sure the screen protector is securely attached to the screen.

5. Support and Maintenance
   - For any questions or support, please contact Hama Customer Support via email or telephone.

6. Cut the screen protector to size
   - Use the included tool to cut the screen protector to size.

7. Preparing the screen
   - Clean the screen thoroughly before applying the screen protector.

8. Screen protector application
   - Align the screen protector with the screen.
   - Press the screen protector firmly against the screen.

9. Screen protector maintenance
   - Clean the screen protector regularly with a soft, lint-free cloth.

10. Troubleshooting
    - If the screen protector does not adhere properly, try applying it again.
