WARNING

Using the product improperly or outside the specified range of values may cause smoking, electric shock, or fire risk. Read the instruction manual carefully before use.

1. In the event of a fire or smoke, please unplug the charger and turn off the device immediately. Do not evacuate to the vicinity of the fire. Extinguish火焰 through an extinguisher or other methods. Depending on the fire situation, contact the fire department or local authorities.

2. Keep the product and charger away from children and pets. Ensure the product is not placed near strong magnetic field objects such as metal objects.

3. Do not excessively bend or pull the product's cable. Do not place the product on a hard and uneven surface or a charger which is not stable. Do not place metallic objects on the charger.

4. When using the product, avoid exposure to direct sunlight. Do not place the product in a location exposed to high temperatures or humidity such as bathrooms.

5. Do not disassemble or repair the product. In the case of malfunction, contact the nearest authorized service center.

6. Use only the original accessories and chargers provided by the manufacturer. For replacement parts or repairs, use parts approved by the manufacturer.

7. Do not use the product in close proximity to other electrical equipment. This may cause interference or malfunction.

8. Keep the product and accessories out of reach of children. Store the product in a cool, dry place and away from direct sunlight. Do not store the product in close proximity to chemicals or solvents.

9. Do not allow liquids to enter the product. Keep the product away from water, humidity, or liquids. Do not use the product near water sources.

10. Do not use the product near strong magnetic field objects or in locations that generate magnetic fields. Avoid using the product near television or computer sets.

11. Keep the product away from fire sources. Do not use the product near open flames or other sources of ignition. Do not place the product near flammable materials or substances.

12. Do not use the product near electrical hazards or under extreme temperature conditions.

13. Do not dispose of the product or its accessories in fire. Dispose of the product in accordance with local regulations.

14. Do not use the product in locations with high levels of dust or dirt.

15. Use the product in accordance with the specifications provided by the manufacturer. Improper use may result in damage to the product or reduce its lifespan.

16. Do not exceed the maximum power output for extended periods. This may lead to overheating or damage to the product.
