Installation instructions and tips for attaching the screen protector

Thank you for choosing the Hama screen protector. For optimal results, the screen protector must be attached correctly and carefully. Take your time and follow the next instructions and illustrations completely, then proceed step by step.

1. Explanation of Warning Symbols and Notes

Warning
This symbol indicates danger (e.g., the risk of electric shock).

Note
This symbol indicates important information (e.g., additional tips and notes).

2. Package Contents

- Screen protector
- Microfiber cloth
- Screen protector application card
- Screen protector removal card
- These installation instructions

Note
The screen protector is supplied already attached. No additional adhesive is required for installation.

3. Installation Requirements and Preparations

- Make sure to work in a dust-free area as much as possible.
- Make sure to work in a well-lit area with no glare on the surface of the screen protector.
- Lay out the necessary tools, the purchased screen protector, the included screen Protector cleaning card, and the instructions.
- Check that the screen Protector is positioned correctly. Fix the screen protector on the flat surface using the included screen Protector cleaning card as an aid.
- Make sure the screen Protector is positioned correctly. Fix the screen protector on the flat surface using the included screen Protector cleaning card as an aid.

Note
The screen protector can be applied to most surfaces that do not have dust or dirt. The screen Protector can easily be removed without leaving residue if care is taken during application.

4. Attaching the Protector

- Remove the protective film from the screen Protector. If the protective film is not removable, the screen Protector is already attached.
- Place the screen Protector on the flat surface. If the screen Protector is already attached, peel the protective film off and repeat the procedure.
- Place the screen Protector on the flat surface. If the screen Protector is already attached, peel the protective film off and repeat the procedure.

Note
The screen protector can be attached to most surfaces that do not have dust or dirt. The screen Protector can easily be removed without leaving residue if care is taken during application.
