Instructions for car cassette adapter

1. Slightly reduce the volume of the car radio. You may reset it after having inserted the car cassette adapter.

2. The car cassette adapter can be connected to an external radio or an external cassette recorder (see drawing).

3. Insert the car cassette adapter as shown in the below drawing (A).
   Attention: To prevent damage to the cable, do not apply, force when inserting the adapter into the cassette compartment.

4. Volume: The volume can be adjusted both on the car radio and on the smartphone/MP3 player. Some external radio and cassette recorder models permit adjustment of the volume on the car radio only.

5. To remove the car cassette adapter, proceed as for removal of a normal cassette tape. Simply depress the «Eject» button.
